

**CK Public Health launches online COVID-19 vaccination registration system
GetYourShotCK.ca and announces new mobile clinics**

Beginning on April 7, 2021, Chatham-Kent residents will be able to schedule COVID-19 vaccination appointments online at [GetYourShotCK.ca](https://www.getyourshotck.ca)

With the support of the Municipality of Chatham-Kent's scheduling system, accessible 24 hours a day, 7 days a week, residents will now be able to schedule their own COVID-19 vaccination appointments. Booking an appointment online has several advantages:

1. Residents will get an immediate confirmation of an appointment after completing the registration process
2. Users can choose from a variety of dates/times and locations that fit their schedule
3. One account holder can register multiple family members who are currently eligible for appointments

To book an appointment, residents will be required to review the current list of eligibility groups and certify what category in which they are eligible. They will then create an account to access the Municipal registration system.

(Please note that those residents who have already used this system to book Municipal Recreation programming already have an account.)

Once logged in, residents can select an appointment date, time and location that is convenient to them.

In addition to launching a new registration system, CK Public Health is also expanding its services with appointment only mobile clinics in outlying communities. Residents can register for an appointment at [GetYourShotCK.ca](https://www.getyourshotck.ca) for the two newly added clinics:

1) **Wheatley**

Wheatley Arena, April 15, 2021, 11:00 am- 6:30 pm,
196 Erie St N, Wheatley,
Drive-Thru Clinic (with an option for those without a vehicle)

2) **Highgate**

Mary Webb Centre April 17, 11:00 am- 6:30 pm,
87 Main Street West, Highgate

For those residents waiting for return calls from our COVID-19 Vaccination Phone Line (519-351-1010) to book a vaccination appointment, we will return your phone call. If you prefer, you can book your appointment online using the new system.
