

# OPIOID SURVEILLANCE BULLETIN

CK Public Health • 435 Grand Avenue West, Chatham, ON N7M 5L8  
Tel: 519.352.7270 Email: ckphucommunications@chatham-kent.ca

## NOVEMBER 2024

This bulletin<sup>1</sup> provides local and provincial surveillance information. For some indicators, there is a lag time to receive data, so data are shown for the most recent **complete month** available. For more detailed provincial and local data visit [Public Health Ontario's Interactive Opioid Tool](#) and the [Ontario Opioid Indicator Tool](#).

### EMERGING ISSUES & NEW RESOURCES

- The unregulated drug supply is unpredictable and always changing. Share information with those at risk and sign up for alerts here from [Toronto's Drug Checking Service](#).

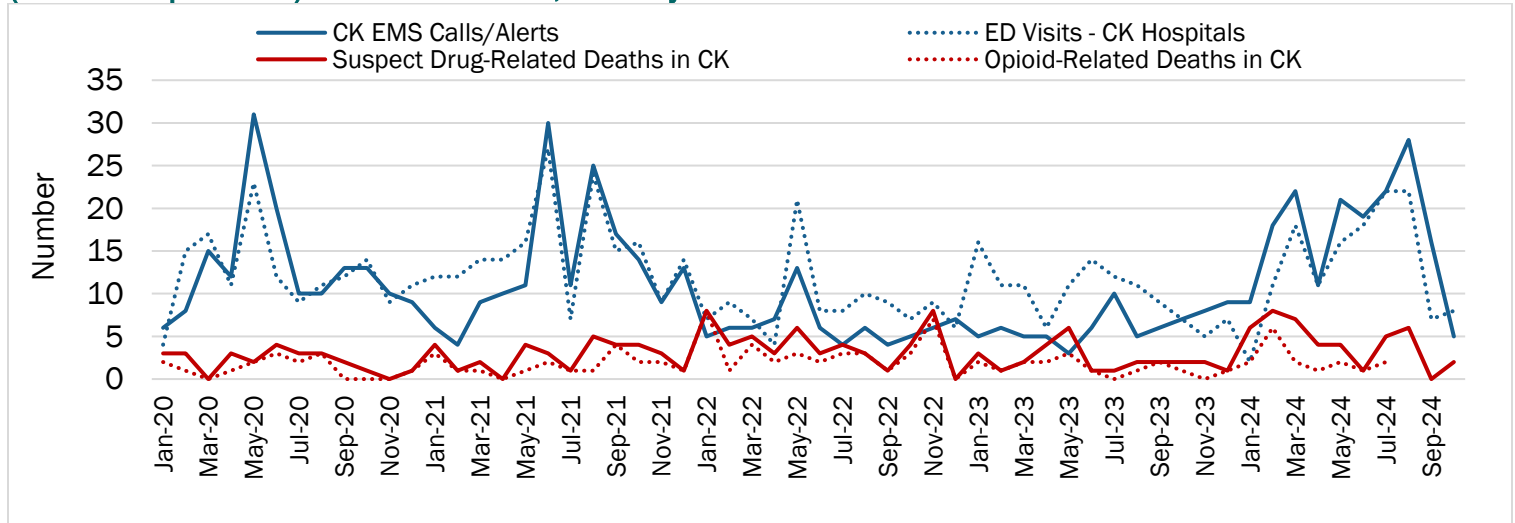

### CHATHAM-KENT ACTIVITY

EMS Calls <sup>2</sup>	<ul style="list-style-type: none"><li>• 5 suspect opioid poisoning calls to CK EMS in October (171 to date in 2024; 75 in 2023) (Fig 1)</li><li>• 4 non-opioid drug overdose calls to CK EMS in October (60 to date in 2024; 119 in 2023)</li></ul>
Emergency Department Visits <sup>3</sup>	<ul style="list-style-type: none"><li>• 8 opioid poisoning ED visits in October (135 to date in 2024 or 120.4 per 100,000; 120 in 2023 or 108.4 per 100,000 (some missing data Oct 2023 to Feb 2024)) (Fig 1)</li></ul>
Deaths <sup>4</sup>	<ul style="list-style-type: none"><li>• 2 suspect drug-related deaths in October (43 to date in 2024 or 38.4 per 100,000; 27 deaths in 2023 or 24.4 per 100,000) (Fig 1)</li><li>• 16 confirmed/probable opioid poisoning deaths in CK between January and July 2024 (14.3 per 100,000; 16 deaths in 2023 or 14.5 per 100,000) (Fig 1)</li></ul>
OVERALL	<ul style="list-style-type: none"><li>• The number of opioid-related EMS calls, ED visits and suspect drug deaths in October continued to be low in comparison to previous months. In 2024 to date, opioid poisoning EMS calls, ED visits, suspect drug deaths overall and opioid-related deaths in CK are trending higher compared to 2023 and compared to the province.</li></ul>

### PROVINCIAL ACTIVITY

Emergency Department Visits <sup>3</sup>	<ul style="list-style-type: none"><li>• 654 opioid poisoning ED visits in October (9989 to date in 2024 or 62.3 per 100,000; 13455 in 2023 or 86.3 per 100,000)</li></ul>
Deaths <sup>4</sup>	<ul style="list-style-type: none"><li>• 265 suspect drug-related deaths in October (3050 to date in 2024 or 19.0 per 100,000; 3855 in 2023 or 24.7 per 100,000)</li><li>• 1466 confirmed/probable opioid poisoning deaths between Jan and July 2024 (9.2 per 100,000; 2656 deaths in 2023 or 17.0 per 100,000)</li></ul>

**Figure 2. Rates<sup>4</sup> of opioid poisoning-related ED visits, hospitalizations and deaths, Chatham-Kent, 2005-22**

**NOTES**

<sup>1</sup>Original content and format of this information summary was originally adapted from Lambton Public Health  
<sup>2</sup>EMS calls up to and including October 2024 are based on calls for service by month provided by Chatham-Kent EMS for suspected opioid-related calls.  
<sup>3</sup>Emergency department visits were provided by the Ontario Ministry of Health and Long-Term Care (Weekly emergency department visits for opioid overdose Week 33: Nov 11-17, 2024). Ontario hospitals are required to report cases of opioid overdose presenting in their EDs to the Canadian Institute for Health Information. CK hospital visit data for October 2023 through January 2024 may still be incomplete due to the regional hospital cyber-attack in October 2023. Results are considered preliminary and subject to change as emergency departments continue to submit data. Rates are based on 2023-2024 population projections, and 2019-2022 population estimates.  
<sup>4</sup>2019 to 2024 suspect drug-related deaths and confirmed + probable opioid deaths are based on the Monthly Summary table provided by the Office of the Chief Coroner for Ontario, November 18, 2024 (publicly accessible here: [Suspect Drug-Related and Drug Toxicity Deaths in Ontario - ODPRN](#); 2005 to 2022 ED visits, hospitalizations and deaths were obtained from Public Health Ontario's [Interactive Opioid Tool](#) (opioid-related deaths include confirmed deaths only, are considered preliminary and are subject to change as remaining cases are closed by the Office of the Chief Coroner of Ontario).
